

DOUBLE SWIVEL, TRIPLE SEALED HOSE ENDS

These reusable nipple-and-cutter style hose ends are compatible with our Stainless Steel CPE race hose and XR-31 hose on page 17. XR-31 looks especially handsome when paired with either our Ti-Tech finish (with the look of titanium) or our black anodized end fittings. **All the hose ends shown are also available in RED/BLUE ANODIZED ALUMINUM and SUPER NICKEL FINISH. SIMPLY THE BEST.** All hose ends are JIC 37°, triple sealed and double swivel to allow for full angular positioning after assembly. Huge double-angled seat area provides line contact sealing and eliminates torque-induced cracking common to lightweight flared tube designs. 2024 aluminum alloy swivel nuts and cutters are T851 heat-treated for longer life. 6061-T651 aluminum sockets prevent stress cracking. Custom ends and metrics are available. Call for details.
